

Island Foods Carbon Reduction Plan

Supplier name: Island Foods

Publication date: 1st May 2026

Commitment to achieving Net Zero

Island Foods is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

[Instructions to Suppliers:

Please provide details of your organisation’s baseline emissions below. If your organisation has not previously assessed or reported emissions, please detail this below and use your first reporting period as your Baseline.]

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2024 baseline. The carbon emission reduction achieved by these schemes equate to **XX** tCO₂e, a **XX**%ge reduction against the 20XX baseline and the measures will be in effect when performing the contract

Details of completed carbon reduction projects:

- Always questioning processes for storing, packaging and transporting fresh goods
- Introduction of eco friendly packaging
- Advertising/promoting the benefits of purchasing locally sourced products
- Work with local providers to encourage and promote sustainable farming
- Maintaining equipment rather than disposing and buying new
- Appropriate training for staff to follow best practice in terms of food waste minimisation

This may include environmental management measures such as certification schemes like ISO14001 or PAS 2060, signing up to SBTI or specific measures you have taken such as; the

adoption of LED/PIR lighting controls, changes to policy resulting in a reduction in company travel and flights or the electrification of the company fleet.]

In the future we hope to implement further measures such as:

- Where possible, Investing in the future by switching to sustainable transport (Hybrid/EV)
- Reduce volumes of waste by supply to dog food company
- Reinvest in more sustainable technology including LED lighting and Solar Panels
